

[REDACTED]

This Department has known this family since January, 1977. The [REDACTED] children of [REDACTED] currently live with their [REDACTED] at an address in [REDACTED].

The Department is currently preparing a Custody Report on the above [REDACTED] children for Royal Court. [REDACTED] and [REDACTED] are both seeking Custody.

[REDACTED] marriage to [REDACTED] has proved disastrous. The parties are separated and in the past there were numerous domestic disputes between the parties involving the Police. [REDACTED] has assaulted her husband in the past and on one occasion appeared at Police Court for this and was fined and Bound Over. [REDACTED] is equally as volatile.

I have been given to understand by both [REDACTED] and [REDACTED] that [REDACTED] is currently under investigation by the C.I.D. (D.C. Le Gros is handling the case) reference an offence of a sexual nature against 11 year old [REDACTED] ([REDACTED]). This has now been confirmed by the Police.

[REDACTED] and the [REDACTED] children; [REDACTED] [REDACTED], who are subject of the Order of Justice, now live at [REDACTED] having been rehoused by the Housing Department.

This Department and the Health Visitors are and have been conversant with the family and liaised over the same for quite some time. Mrs. Tully, a Health Visitor, last saw [REDACTED] and the children prior to Christmas.

I have visited [REDACTED] today and can report that [REDACTED] [REDACTED] are in good general health. They are grubby and the home inclines towards dirtiness and scruffiness but perhaps no more than many of our families.

[REDACTED] has once again denied allegations made by [REDACTED] and this Department has no proof positive to support such allegations (or we would have acted).

[REDACTED] would be happy to see a Health Visitor on definitive scheduled visiting if it was desired. Mrs. Tully, Health Visitor, and Mrs. Purvis, Health Visitor, have both in the recent past expressed their opinions that home conditions are reasonable.
