

not

7 April 1967 *l*

.....fell off the steps leading from the house to the sports field and sustained a nasty cut to her eye which could have been serious. The accident prevention officer is, I know, going to suggest a rail by the side of these steps, but I do not think we should wait for his report but should have something done as soon as possible. It is necessary and is not a 'normal' risk now that we have such young children here.
