Tim

I believe that Steve Baker is going to share his advice with the police to ascertain if they have any observations about his view of the case. If they are content with his advice then no meeting will be required. If they have concerns about the proposed non-action in certain cases, then it would be appropriate for us and Steve to arrange a conference with the police.

I have copied this to Steve for him to confirm my understanding. I take it that you are referring to the Donnelly third party allegations.

John

I am conscious that I am to take prosecution decisions on:

1. The Connelly third party allegations;

██████████ allegations against Aubin.

Could we discuss this briefly with a view to arranging a case conference if need be with the Crown team and Police to reach a conclusion.

Tim
