INFORMATION

Spoke to [REDACTED] via telephone on the above date and time.

He stated that he worked at Les Chenes/Greenfields between 2003 - 2005 as a [REDACTED]. At that time [REDACTED] and [REDACTED] were [REDACTED]. At no time did he witness any violence towards residents by staff as he stated that he wouldn't let that happen. Children were put in secure for their own safety and the safety of others. He can't recall how long they were in secure but stated that there were log books kept for each cell.

Les Chenes was an old farmhouse with bedrooms upstairs and 4 cells downstairs. Kids were placed in the cells when placed in secure. They would receive meals, exercise and one to one tuition which was more contact than a child who was not in secure. It was an old building which was used as best as it could be.

Once Greenfields opened, and up and running, Les Chenes closed down. There were 8 rooms which were locked during the night. They were only locked during the day if the kid had been naughty.

[REDACTED] is happy to be contacted should we need to.
